Exchange of Good Practices in the matter of early stage career orientation for pupils and young people

PROJECT GOALS

The aim of the project is to foster the education competences of the involved project partners as well as teachers/principals in the matter of an early professional career orientation and guidance for pupils/students of public schools, schools with gymnasium upper level, special education schools and high schools.

PROJECT ACTIVITIES:

6 learning and experience exchanges between the project partners and principles/teachers through the implementation of 5 day on-site visits (so-called mobility) with the aim of acquiring ideas and getting to know good practices and methods, develop and strengthen networks and to gather experiences of the transnational collaboration .

TARGET GROUPS

- ⇒ Teachers and principals, which deal with the subject of early vocational guidance
- ⇒ Pupils/students/young people from the primary and secondary education, in particular disadvantaged and threatened with early school leaving
- ⇒ Pupils/students with migrant background and a long-term perspective of stay
- ⇒ Staff of the project partners
